VOL. CXXXIII—No. 250. ALEXANDRIA, VIRGINIA, THURSDAY, OCTOBER 18, 1917. PRICE ONE CENT.

MEETING AND PARADE

Liberty Loan Day, Oct. 24, to be Properly Observed in Alexandria—Arrangements Under Way.

The Liberty Loan committee having in charge the campaign for the sale of the bonds in Alexandria, held a meeting in the rooms of the Chamber of Commerce this morning at half-past nine. During the session the various phases of the work were discussed in detail and plans made for interesting the people and thereby increasing the sale of bonds to the largest possible extent. Chairman Leo Harlow, presided.

The committee realizes the fact that there are still a great number of those who are able to purchase bonds who are not doing it for the reason that they do not sufficiently appreciate the vital importance of the case.

Some are saying "Oh, the banks will take care of the bonds." This is an entirely erroneous idea. The banks CANNOT take care of such an immense outlay unless the people come to their assistance. Why? Because they cannot spare as much money from their regular business as will be required.

Again, it is not up to the banks to do so, any more than it is for the people themselves. That fact must be conceded. This was is FOR THE CAUSE of LIBERTY, which is THREATENED by the WORST TYRANT alive today, and it is up to the individual man and woman to DO THEIR DUTY AND HELP DEFEAT HIM.

Young men have gone from Alexandria to give their lives, if need be. Can we who remain at home do less than lend our money? If you have been asleep concerning this matter, it is time to wake up. You are not asked to give your money, but simply to lend it and be paid interest on it twice a year.

In obedience to the expressed wishes of the President of the United States as voiced in his proclamation, it was decided to observe October 24th as Liberty Loan Day with a public meeting, and to ask all business houses in Alexandria to close at noon on that day in order that everyone in the city may take part in the monster parade and patriotic demonstration which will be held preceding the mass meeting at 3 o'clock.

The following named committee will meet tomorrow afternoon at 2 o'clock at the Chamber of Commerce to make the necessary arrangements: Harry Hammond, J. Y. Williams, J. Wm. May, H. B. Caton, Thos. B. Cochran, J. H. Trimyer, Kenneth W. Ogden, Capt. W. H. Sweeney, P. M. Bradshaw, Howard W. Smith, R. L. Payne, Wallace Sidney, O. H. Kirk, A. D. Brockett, Leo Harlow, S. W. Pitts, J. T. Preston, R. L. Carne, Harry Rudd, W. S. Nicklin, Dr. E. A. Gorman, Robert S. Jones, Joseph Schwarzmann, R. E. Knight and Miss Rose M. MacDonald.

The bankers report a fair sale of bonds so far but say that it must be very largely increased in order to bring Alexandria's quota up to a creditable showing.

ADMITS PAYING MONEY.

Deutsche Bank Acknowledges Transfer Through Hugo Schmidt in the Bolo Pasha Affair.

Copenhagen, Oct. 18.—The Deutsche Bank admits in the Vossische Zeitung, which prints four columns on the Bolo Pasha affair, that it transferred a sum of money, amount not stated, to Ambassador von Bernstorff through Hugo Schmidt. The bank acted upon instructions from a source generally responsible for the payment of salaries and other payments to our ambassador," and did not concern itself with the purpose to which the money was applied.

The Deutsche Tages Zeitung makes the Bolo affair the text for an attack on the judgment and ability of von Bernstorff, whose candidacy for the imperial chancellorship evidently is still feared by the pan-Germans.

Oyster Supper.

An oyster supper will be given at the Westminster building on Thursday night of this week for the benefit of the Girls. Club. There will be good music as well as a good supper and the admission will be only 35 cents. All are cordially invited.
248-3t.

WOMEN'S MASS MEETING

Thirty Per Cent of the First Liberty Loan Bonds Sold in Alexandria Were Bought by the Ladies.

The women of Alexandria were expected to show their patriotism in the national emergency when the first Liberty Loan bonds were placed on sale, and they did so by buying thirty per cent of the bonds sold here.

And it is confidently believed they will make a better showing on the second loan. Their committee is actively engaged in the distribution of literature and in soliciting purchases of the bonds.

They are also intensely interested in the success of the mass meeting which is to be held in the Surprise Theater tomorrow afternoon at 4:30 which is to be addressed by Mrs. Antoinette Funk, of Chicago. It is hoped that the Twelfth Field Artillery Band of the St. Asaph military camp will give a concert previous to the speaking. The meeting will be especially for the women of the city, all of whom are earnestly invited to attend.

A meeting of the women's committee, of which Miss Rose M. MacDonald is chairman, will be held at her home this afternoon at 4:30 to complete arrangements for the mass meeting.

DEATH OF MRS. T. F. RYAN.

Financier's Wife Passes Away Early This Morning.

Suffern, N. Y., Oct. 18.—Mrs. Thomas F. Ryan, wife of the capitalist, died early this morning of heart disease at her country home near here. She had been ill for two weeks.

At noon yesterday on advice of her physicians, she took to her bed. She was conscious up to the time of her death.

T. F. Ryan and her son, Allen, were at the bedside when the end came.

Mrs. Ryan for many years had been engaged in building chapels, churches, hospitals and schools. Well authenticated information says there are more than a hundred buildings. They are scattered through New York, Virginia, Maryland, Texas and up in North Dakota.

In Virginia, the State from which the Ryans came, Mrs. Ryan built a chapel at Hot Springs, accommodating 150; a $20,000 church at Manchester, seating 400; the Sacred Heart School in Richmond, Va., with accommodations for 400 children; a sister's residence in Richmond; a school at Newport News, Va., accommodating 200 children; a chapel at Covington, Va., accommodating 200; a $20,000 church at Falls Church, accommodating 400, and a hospital at Lynchburg, Va., with 70 beds, medical and surgical wards for white and colored patients, soloriums, dispensary, chapel, and morgue, costing upward of $50,000.

Mrs. Ryan did charitable and church work in Washington, including contributions to Georgetown University.

As a philanthropist Mrs. Ryan's work has been far-reaching. She built more churches and missions for the worship of God than any other person, it is said.

Mrs. Ryan did much charitable and church work in Washington. She was the donor of Ryan Hall to Georgetown University. The convent and chapel of the Perpetual Adoration is another gift of Mrs. Ryan. She established this order in the United States in 1900. In this convent there are five nuns who devote themselves to prayer. Every hour of the night and day some one is kneeling in prayer before the altar. The chapel cost $300,000. Under the alter there is a crypt, where her body may be interred.

Mrs. Ryan also endowed two rooms at St. Elizabeth's Hospital.

She received decorations from Pope Leo XIII and Pope Pius X. She was a member of the Roman Society. "For Church and State." Mrs. Ryan also enjoyed the privilege of a chapel in her private car, which honor has been extended to only one other person, the Queen of Spain.

Before her marriage, Mrs. Ryan was Ida M. Barry, of Baltimore, Md. Thomas F. Ryan was a $20 a week clerk in her father's dry goods store. After several years John B. Barry, her father, procured a position in New York for the energetic and ambitious young man. He made good and returned, marrying Miss Barry, November 25, 1873.

Notice.

I hereby announce myself as a candidate for member of the city School Board from the First Ward.

C. R. YATES.

250-1t.

Alexandria City and Suburbs

The home of Dr. and Mrs. Charles Green Lennon, formerly of this city, but now of Brookland, D. C., was the scene of a beautiful wedding Tuesday evening last, when their youngest daughter, Helen Stuart, became the bride of Mr. John Joseph Rodler. The marriage was witnessed by only the immediate families of the contracting parties, and was performed by the Rev. William Turner, of the Catholic University. Miss Ella Hill, of this city, played the wedding march. The bride was given in marriage by her father. She wore a gown of white satin with drapery of filet lace and georgette crepe over silver lace. Her court train of satin and georgette crepe was embroidered in pearls and her veil of tulle was held by a silver bandeau. She carried bride roses and lilies of the valley. Miss Rebecca Gregory Lennon, sister of the bride, was maid of honor, and was attired in white crepe de chine and flame colored tulle and carried American Beauty roses. The groom had for his best man his brother, Mr. Paul Rodler. Mrs. Lennon, mother of the bride, wore white tulle over satin trimmed in rhinestones, with a corsage bouquet of violets, and was assisted in receiving her guests by Miss Bettie Pollard, cousin of the bride. Miss Pollard wore black lace over satin, with diamond ornaments. The house was attractively decorated in autumn leaves and chrysanthemums and formed a pleasing back ground for the beautiful reception which followed the ceremony. Late in the evening. Mr. and Mrs. Rodler left for a wedding trip. Many beautiful presents were received by the young couple, among them, a chest of silver, from Mr. and Mrs. Justus Schneider, of this city, grandparents of the bride.

Miss Nora Perry is sick at her home in north Patrick street.

Mr. Harvey Sutherland who has been quite sick at his home in Oronoco street for the past several weeks, is improving.

Mrs. Paul Welch, formerly of this city, but now residing in Wilmington, Del., is visiting her parents, in north Pitt street.

C. R. Yates has announced himself as a candidate for member of the city school board from the First ward.

The prayer meeting at the Ann Lee Home for the Aged will be led by Mrs. Alfred G. Uhler tomorrow afternoon at 3 o'clock.

Toler Courtney, of Gibbon street, was quite badly injured yesterday by a large bucket of sand which fell on him while employed on a sand dredge across the river.

The many friends of Mr. Russell Thompson will be glad to hear that he is improving after an illness of several weeks of typhoid fever at his home in south Fairfax street.

Captain and Mrs. J. D. Hellwege have arrived in the city to take charge of the Salvation Army work here. They come from Danville, Va., where they have been stationed for the past two years. Previous to that time they were at Punxatawney, Pa. Captain Hellwege brings a highly commendatory letter from the Rev. J. Cleveland Hall, rector of the Episcopal church and president of the Ministerial Association in Danville. They will hold a welcome meeting in the Salvation Army headquarters on King street this evening at 8 o'clock.

A suit for divorce on the ground of desertion has been entered in the Circuit Court in this city by Hattie Everett against John H. Everett.

The fire department was called out last night about eight o'clock to 1203 Duke street to a slight blaze in a chimney.

Mrs. Florence Chauncey announces the marriage of her daughter Marion Ida Smith, to Mr. M. Smith Chauncey. The ceremony took place August 25, 1917.

The president of the Parent-Teachers' Association requests that the High school students who left school on Monday last meet her in the Sunday school room of the Methodist Church South tonight at 7:30.

The seventy colored men on the eligible list for the draft have been summoned to appear at noon Saturday before the local draft board. It is expected that they will be sent next week to Camp Lee, Petersburg, Virginia.

Cards have been received in this city from Columbia, South Carolina, announcing the marriage of Mrs. Hattie I. Geddings and Mr. Daniel C. Dickert. The ceremony occurred on Tuesday, October 16th. They will be at home after October 22nd at 300 north Columbus street, Alexandria.

Ten candidates will be initiated by Potomac Lodge of Odd Fellows tomorrow evening at 7:30 and a large attendance of members is looked for as much interest is being taken in the work. Those who went to Baltimore yesterday, about forty or so express themselves as much pleased with the trip. Some five thousand members of the craft were there from the various parts of the country.

REFUSE INCREASE.

Argentine Railway Men Out, Despite Presidential Decree.

Buenos Aires, Oct. 18.—Despite the recent presidential decree announcing the end of the railway strike and the agreement by the companies to increase wages 10 per cent. the majority of the strikers are refusing to resume work.

The strike has lasted nearly a month and its effects have been aggravated by the simultaneous paralysis of ocean and river traffic and the destruction of telegraph lines, causing many points to be completly isolated.

Reveal Submarines.

Denver, Oct. 18.—Lieut. William R. Fussell, former chief of the wireless division of the Seventh New York Infantry, now in the reserve, has perfected what he believes is the solution of the submarine problem.

The device consists of a small mica tube containing a radio-active substance which projects electrical radiations and by reflected rays reveals a submarine. Lieutenant Russell has submitted his invention to Washington authorities for a test.

An "Evening With the Choir."

A musical entertainment in the way of an "evening with the choir," will be given at the Young People's building tonight at eight o'clock by the choir of the Methodist Church South, under the direction of Mrs. Thomas A. Hulfish, at which old fashioned songs will be rendered. All men in uniform will be admitted free as guests of the choir. A silver collection will be taken at the door to assist in defraying the church expenses.

28 GERMANS INDICTED.

South Dakotans Charged With Attempting to Hinder Draft Law.

Sioux Falls, S. D., Oct. 18.—Indictments against 28 Hutchinson county (S. D.) Germans arrested last March were returned. The accused are alleged to have attempted to hinder the operation of the selective draft law.

NO CHANCE FOR PACIFISTS.

Naval Reserves Break up Street Meeting in New York.

New York, Oct. 18.—Forty naval reservists from a government radio station marched through a street assembly of 1,000 Columbia University students yesterday and broke up a demonstration planned by the followers of Leon Sampson, expelled from Columbia for his anti-war attitude while a student.

Several friends of Sampson appeared in an automobile after handbills had been distributed announcing the coming of "our fighting pacifist." The students had surrounded the machine, some jeering its occupants, when the naval reservists arrived. They made their way through to the car and seized a banner urging the students to vote for Sampson's reinstatement. The chauffeur drove the car away speedily, with the reservists giving chase.

La Follette Will Explain.

Senator Robert M. La Follette is planning to take his case direct to the people. Having failed to secure a complete investigation of his alleged seditious utterances and activities from the Senate sub-committee, he is today arranging to go upon the stump and endeavor to secure popular vindication of his position.

He has invitations to make speeches in all the large cities and may avail himself of this opportunity to make his positon clear to the people.

Meanwhile both Senator La Follette and his accusers are making every preparation for a show-down when the investigating committee reconvenes on November 26. Although the committees' powers are limited, it is determined to go to every length within its authoriy to secure the facts about Senator La Follette's St. Paul speech, perticularly those relating to the Lusitania case.

Senator La Follette, at the same time, is preparing to combat the investigation with all his energy and resources.

The committee plans to call William Jennings Bryan, former Secretary of State, and many other high Government officials.

What will be the final outcome of the movement to expel Senator La Follette from the Senate is a matter of pure conjecture. Much depends upon his conduct between now and the reconvening of Congress.

ATTACKED WATCH BOX.

Several Boys Arraigned in the Police Court for Damaging Property.

Three youths, old enough to know better, last night made a wanton attack upon the inoffensive box at the northeast corner of Prince and Henry streets, used by the railroad watchman. Among the acts committed by the youngster was breaking bricks and filling the stove pipe with the fragments. They also partially demolished the wooden platform in front of the structure. It was alleged that on other occasions glass in the windows had been broken. Justice Caton fined the accused $1 each. They evidently supposed they would meet the fate of other juveniles who are often haled into court—be dismissed with a reprimand. The grounds of Lee school building adjoining the watch box are used as a playground by many boys living in that vicinity. Chronic complaints come from people residing nearby of disorderly proceedings on the part of the youths.

Two other cases were on the docket this morning both "drunks" who forfeited their collateral by failing to appear.

Peru and Chile.

Lima, Peru, Oct. 18.— After being at odds for seven years, diplomatic relations between Peru and Chile have been re-established simultaneously at Lima and Santiago. The differences between the two nations had their beginning in 1875 after the defeat of Peru by Chile in the war over the possession of the provinces of Tacna and Arixa. These provinces were ceded provisionally to Chile with the understanding that after a period of ten years, a plebiscite would be held to determine whether they should revert to Peru. Since the plebiscite was never held diplomatic relations were never resumed.

Honor Refused.

London, Oct. 18.—Will Thorn, one of the most prominent Labor members of the House of Commons, recently refused the new Order of the Britsh Empire, a number of which weer bestowed by King George.

Thorn gave as his excuse for refusing the honor "personal reasons" but it may be significant that a few days later W. C. Anderson, M. P., in an address to engineers of Woolwich arsenal, stigmatized the British government's awards of honor to labor as attempts to influence the working men.

WOULD DONATE $10,000

Sovereign Grand Commander of Scottish Rite Masons Favors Memorial to Washington in Alexandria.

George Fleming Moore, sovereign grand commander, Supreme Council, in the biennial allocution at the opening meeting in Washington yesterday, made many recommendations, including the appropriation of $10,000 to the George Washington Masonic National Memorial Association for the erection in Alexandria of a creditable memorial to George Washington, as a Freemason.

Mr. Moore discussed Secretary of War Baker's order interpreted as excluding all organizations from camps and cantonments, except the Y. M. C. A. and Knights of Columbus, which are now active, and said: "Now is not the proper time to raise questions of this character or to put obstacles in the way of our government in endeavoring to render its great war machine effective."

Elaborate ceremonies will mark the conferring of the thirty-third degree at the Scottish Rite Temple tomorrow night on the four Washingtonians who were awarded this honor at the convention of the Supreme Council of the Ancient and Accepted Scottish Rite Freemasonry for the Southern jurisdiction. Those who will receive these degrees are George R. Davis, Charles G. Toepper, John Von Herrmann and Horace P. McIntosh.

Other Washingtonians to receive high honors were Archie D. Engel, William T. Galliher Carter B. Keen, Willam H. Landvoight, Lemuel Tower, Jr., and Henry Lansburgh, who were made knight commanders of the court of honor.

At its session yesterday the Supreme Council conferred the honorary degree of knight commander of the court of honor on Frank W. Latham and W. L. Allen, of Alexandria.

KAISER IS DEFIANT.

Invites France to Come and Take Alsace-Lorraine When They Are Ready.

The Hague, Oct. 18.—A dispatch from Berlin today places the Kaiser on record as saying that Germany will not give up Alsace-Lorraine to France unless they are taken by force of arms.

Karl Rosner, war correspondent of the Berlin Lokal Anzeiger, who accompanied the Kaiser to Constantinople, telegraphed an account of a luncheon on the trip east. The Kaiser had just finished reading an account of the speech of Premier Painleve of France, in which the premier said France would fight until Alsace-Lorraine were restored.

"Good," the Kaiser was quoted as saying. "So M. Painleve wants Alsace-Lorraine. But he must come and take them. His loud sounding phrases are without reason."

Milk Prices.

Milk may be high but the prices now are a mere bagatelle to what they may be before the end of the war. The product of the one-time humble bossy may go as high as 25 to 30 cents a quart if the world-conflict is long protracted.

This is the opinion fo many of the delegates to the International Association of Dairy and Milk Inspectors, who today are on their way back to homes in this country and Canada, following the close of their three-day convention in Washington.

Dr. R. A. Pearson, assistant secretary of agriculture, told the convention that if milkmen were getting returns just comparative with other producers of the country, they would now be charging between 15 and 20 cents a quart.

Pays $47,000 For Horse.

Waterloo, Iowa, Oct. 18.—C. C. Good, of Ogden, Utah, bought in at auction yesterday the Belgian stallion Fauceur, paying $47,000, a record price. The stallion was owned by William Crownover, of Cedar Falls, Iowa.

Twenty-five German machines were "bagged" by French flyers in the last two days, the Paris war office reports. Twenty of them were drowned in eight fierce air duels.

Salt Water and Potomac Oysters. J. Brill, No. 2, King street. Phone 307J.

FOOD CONSERVATION

What May be Done by the Proper Co-operation of the People of Virginia.

In the conservation of food there is an opportunity for every individual to play his part in the war. One is not asked to reduce his food requirements, but to use the foods which are plentiful and to avoid all waste, "Eat plenty, but wisely and without waste."

Waste is the most destructive enemy a nation must combat. With natural and human resources developed to their utmost, every waste of energy in any form is an irretrievable loss. The Government can regulate exports and encourage increased production, but it cannot step into the home or restaurant and direct the utilization of each item of left-overs. This service is the task of every individual who handles or consumes food.

In war times, in particular, Mr. Garbage can must give way to the Salad Bowl, the Baking Dish and the Soup Kettle, even though he starve.

An individual saving may seem in itself insignificant. What is the value of saving a tiny one-third ounce of fat? The following in this section will show you. If every one in Virginia saves 1 ounce of sugar, 1 ounce of meat, 2 ounces of wheat flour and 1-3 ounce of fat daily, then in one week enough food will have been saved to supply the Virginia Draft army of 21,000 men as follows: sugar for 7 months, meat for 2 months, flour for 5 months, and a large quantity of ammunition containing glycerine manufactured from the fat.

Statistics.

Every group can substitute, and even the great majority of thrifty people can save a little, and the more luxurious elements of the population can, by reduction to simple living, save much. The final result of substituting other products and saving one pound of wheat flour, two ounces of fats, seven ounces of sugar and seven ounces of meat weekly by each person will, when we have multiplied this by 100,000,000 have increased our exports to the amounts absolutely required by our Allies.

Food for 1,000 men for 30 days: Wheat flour 24,270 pounds; meat 27,548 pounds; sugar 8,390 pounds. Virginia Draft quota 21,000. Population of Virginia 2,500,000.

VIRGINIA NEWS.

Those persons who depend on wood for fuel purposes will receive a rude shock when they go to lay in their supply for the winter says the Richmond Journal. About four months ago dealers advanced the price of wood to $8 a cord. It is now $12. It had been held at the "uniform" price of $6 for a long time. The coming of winter, the need for fuel, the fact that many had left the woods and the fields and the farms, and the further fact that they would need fuel, made wood dearer. Washerwomen in all parts of the city are dismayed. They say they cannot buy wood to do their work. With the prices charged the cutting and hauling of wood to the city may soon prove far more remunerative than working by the day in the great camps and industries.

Showing the futility of appealing to the President for exemption from draft, hundreds of letters that have gone to Washington are on file in the office of Adjutant General Sale awaiting action of Virginia exemption officials. Letters addressed to the President asking exemption for any reason never to get him, it is said. A secretary learns their nature, they are reclosed and forwarded to the district boards for final disposition. Such letters are being sent to Richmond from Washington at the rate of fifty a day. More than 700 requests for reconsideration of exemption claims have been received to date. These are from all parts of Virginia.

Fresh Fish will be on sale at the city market tomorrow, Friday, and the balance of the week at Geo. E. Price and Co's. stand. Large white perch, medium white perch, large rock, medium rock, Jersey trout, large Norfolk spots, Telephone 321J.

CHAPTERS IN PAST HISTORY.

Two wealthy Englishmen once engaged in a dispute concerning the gullibility of the human race. One contended that should a man station himself on London Bridge and offer to sell imitation guineas at sixpence each, and another display real guineas at the same price that the man offering the latter would dispose of less during the day than the man with the bogus coins. The disputants determined to test the matter, and one supplied himself with a number of fictitious guineas, while the other displayed real simon pure coins. At the end of the day the man who had offered the spurious guineas sold out completely, while his friend, who had stood over genuine coins all day sold but one, and that to a woman who remarked as she moved off, "I'm satisfied I have been cheated."

When John Laws, the Scotchman, of skyrocket financial notions, went to France and launched "The Mississippi Scheme," the nation became aroused. Rich and poor alike invested. Hack drivers, washerwomen, bootblacks, in short every one who could raise money rushed in to buy. It was about the same time that "The South Sea Bauble," set London crazy. These flimsy ladders upon which the hopes of the two nations had been built soon collapsed and thousands found themselves ruined.

The above references to European history are reproduced to show that many persons—in fact a large majority—will venture in schemes which their common sense should teach them to look upon with suspicion, but when the best security is offered for investments a sort of apathy generally spreads over such classes.

We could refer to local happenings of recent years which show that while money is a sensitive thermometer, some people are carried away with exorbitant offer which almost invariably prove illusions.

The offerings of Liberty Bonds, backed by the government of the United States, and not individuals like John Laws or the promoters of "The South Sea Bauble," are now on the market. They are not imitations of English guineas, but are secured by our great nation. Every American in a position to invest should regard it as a privilege to take part in the patriotic movement.

Shall we be more tender with our dollars than with the lives of our sons?

This question of Secretary McAdoo's is one which every American should ponder and answer to himself says a contemporary. Our sons, our brothers, our intimate friends, have put on uniforms and are going across the sea to fight for us. We have, for the most part, given them up gladly. Our chief feeling for them is of pride, not of regret. We are glad they are able to fight for their country. We wish we were able, or so we say to ourselves, to fight in our own persons. If it were not for our age, or our sex, or our rheumatism, we would be fighting for ourselves. So we like to think.

We can fight—by proxy. We can help our sons and our brothers to fight. We can help them to fight most efficiently. And we can do it by making the infinitesimal sacrifice involved in saving what money we can and lending it, at good interest, to the Government.

What hypocrites we shall be if we do prove more tender with our dollars than with the lives of our sons!

MERELY A MARE'S NEST.

The Norfolk Ledger-Dispatch of yesterday discovered a "plot" on the part of certain ministers of Norfolk city, names unknown and previous political affiliations undetermined, to bolt the Democratic ticket in an effort to defeat Westmoreland Davis for governor and place Mr. Muncy, the Republican nominee, in the gubernatorial chair.

The Ledger-Dispatch prints a communication from C. H. Shipman, of Leesburg, in which that gentleman quotes as his authority for the "plot" no less a personage than Rev. David Hepburn, assistant superintendent of the Anti-Saloon League of Virginia. He declares that Mr. Hepburn told him that certain Norfolk ministers had had a conference "the other day" and that they had decided that they wouldn't throw away the work they had done for prohibition in Virginia, but would throw their support to the Republican nominee. Mr. Shipman further declares that Mr. Hepburn rather more than intimated that the chances were good for the election of the Republican candidate.

Mr. Hepburn is now on a speaking tour in Ohio, where a campaign is being waged for the adoption of a prohibition amendment to the state's constitution and nothing from him could be obtained.

However, Dr. R. H. Pitt, president of the Anti-Saloon League of Virginia, in response to a query from the Norfolk Ledger-Dispatch, advised that newspaper that, while he had no knowledge of the utterances attributed to Mr. Hepburn and hence could not discuss them, he could speak for himself that he will very cheerfully support Mr. Davis, and that, to the best of his belief, all of the Anti-Saloon league leaders will do likewise.

The general opinion of interested persons who could be seen in Richmond yesterday was that Mr. Shipman's charges were really not serious, and that they would have little, if any, effect on the usual big Democratic majority in the coming election. Beyond stating that it was "merely a mare's nest," Commissioner of Prohibition J. Sidney Peters declined to comment on the charges.

WELL SAID.

A correspondent of a Baltimore paper recently had his views of a certain class in this country printed. Among other things the writer says:

Myself and other observers have often, and are still wondering why a great number of Germans take up for their "Kaiser and their home-country," when, as a matter of fact, the majority of young men who had the means to immigrate here in the last 30 years or more, have done so for the purpose of avoiding doing military duty.

Thousands of such youths (both from Germany and Austria) have forsaken their native land, not only for the above reasons, but also to better their condition—a condition which they realized they were unable to attain at home (otherwise they surely would have remained there.)

However, after prospering and establishing their new and happy homes under the protection of the American flag, a vast number began and are still finding vault with everything American, praising and upholding their Kaiser and his subject serfs, whom they credit with having swallowed the Kultur of all the earth. Then they turn traitors, ready and willing to hand over our beloved America to the Hohenzollerns (if it could be done).

Such miserable trouble-breeding individuals, including La Follette and others of his type, who are doing all in their power against our Government, in this—the very hour of danger of being Hohenzollernized—deserve to be shot at sunrise!

I will say the only remedy for those discontented "kickers," who do not like American ways and American language, is to pack up and get out as soon as possible for the benefit of the more sensible, well thinking and loyal German citizens, who believe and are satisfid to support the Government under whose protection they established their homes and make their living!

COAL MEN PLEDGE AID.

Anthracite Operators Name Representative to Help Government Solve Problem.

Washington, Oct. 18.—Anthacite coal operators, representing most of the country's hard coal output, at a conference with the Fuel Administration Tuesday pledged full support to the government in solving the coal problem. They agreed to name a representative to act as an assitant to the administration and a committee to represent the industry in all government dealings.

The operators came here at the instance of Administrator Garfield to plan effective team work between the coal industry and the government.

It was brought out that the mines have produced 8,000,000 tons more of anthracite than had been mined at the same time last year. All of the operators declared the most difficult problem is that of distribution, but they promised to co-operate with the government and the railroads in the program to furnish every consumer coal actually needed at government prices.

U. S. PRISONERS STARVING.

Man Who Escaped From German Camp Tells of Hardships.

Washington, Oct. 18.—Minister Morris at Stockholm cabled the State Department yesterday news of the arrival there of Willot Charles Smith, of Norwalk, Conn., who escaped from a German intrenment camp at Kiel and brought word that American prisoners in Germany would starve but for food sent them by the Red Cross and Young Men's Christian Association.

Smith was a horseman on the British steamer Esmeralda, captured by the German raider Moewe, and was carried into Germany just before the United States broke diplomatic relations. No details concerning his escape were given by the Minister.

"Smith stated," said a State Department statement announcing the escape, "that without the food packages sent by the Young Men's Christian Association and the Red Cross, prisoners would not be able to live, as the daily food ration consists of a slice of black, sour bread and a drink of cold coffee for breakfast and for dinner and supper about a pint and a half of warm soup apparently consisting of water and turnips."

BANK ROBBERS JAILED.

Bandits Had all but $34 of $5,300 Stolen.

Newark O., Oct. 18.—All but $34 of the $5,300 stolen yesterday morning from the Granville Bank, at Granville, a village near here, was recovered yesterday afternoon with the capture of two men in soldiers' uniform by C. O. Burke a former Newark policeman. The robbers wore civilian attire when they entered the bank. The men taken, both under 25 years of age, refused to reveal their names.

Assistant Cashier Harry Pearce and the bank stenographer, Miss Addie Slack, were backed into the bank vault at the point of pistols by the robbers who escaped with all the bank's currency not locked up.

A sheriff's posse was quickly organized and the surrounding country searched. Several hours later Burke overtook the two men walking along a country road. He offered them a ride in his automobile, which they quickly accepted. They were taken to the Hebron jail, where later they were identified by the bank cashier. The money was found concealed about their clothing.

WOULD AVAIL LITTLE.

Naval Experts Not Worried Over Threat of U-Boat Base On Coast.

Germany's reported intention to establish a submarine zone about the United States, Canada and Cuba is taken in Washington with a touch of skepticism. Despite this, however, naval authorities said it was entirely possible that the Teutons would endeavor to stretch out their sphere of operations now that they are building larger U-boats than heretofore. Such a zone, however, would avail the Germans little. By maintaining vessels on the European side they are near home bases and have a better opportunity to carry on their ruthlessness than at such a distance as this coast, experts point out. Moreover, torpedoing off the American shores undoubtedly would be one of the best stimulants to war spirit thus far developed, and there have been evidences that Grmany, realizing this, would avoid undertaking it.

MICHAELIS AS DICTATOR.

Friends of German Chancellor Would Give Him Power.

Copenhagen, Oct. 18.—The Berlin correspondent of the Fremdenblatt, of Hamburg, an able political observer, discerns indications that forces actually are at work in the entourage of Chancellor Michaelis with a view to military dictatorship, or at least with the idea of having the Chancellor continue in office in defiance of the Reichstag, supporting himself by military backing. Conservative and Socialist papers in Germany have been engaged in a controversy for some time on the subject of a dictatorship, but hitherto it had not semed to be of such a nature that it should be taken seriously.

M. L. Coles, negro wanted in Philadelphia on a charge of the theft of several thousand dollars' worth of diamonds, was arrested yesterday in Newport News. The negro had $2,000 worth of diamonds in his possession when taken into custody.

INFANT PARALYSIS REMEDY.

Newly Discovered Serum Hailed as Effective Specific.

Rochester, Minn., Oct. 18.—The new poliomyelitis serum discovered by Dr. E. C. Roznow, of the Mayo clinic in this city, after months of research, was used today for the first time in this State, with excellent results, on the 11 months old child of George Goetting, of Rochester.

The child became afflicted with infantile paralysis a few days ago, and, after several local physicians had attended the infant, Dr. Roznow was called. Upon his arrival at the Goetting home he found the child near death, with its right arm and leg completely paralyzed.

Immediately after his examination Dr. Roznow administered an injection of his discovery. Soon an improvement was shown. Another treatment of the serum later in the day resulted in the child being reported well on the way to recovery. Today the doctors announce the baby entirely out of danger.

Leading physicians here believe, after watching this case very closely, that Dr. Roznow's serum is a positive cure.

SPECIAL NOTICES

Notice.

The Southern Railway Company and Washington and Old Dominion Railway will apply to the State Corporation Commission at Richmond, Va., on Wednesday, October 24th, at 10 o'clock a. m. for authority to apply on ground limestone, carload, the Alexandria, Va., combination of special proportional rates in lieu of the present published rates between stations in Virginia. The proposed changes will involve both advances and reductions.
245-4t.

The annual meeting of the stockholders of Union Building Co., Inc., will be held on the 29th day of Oct. 1917, at 11 o'clock, a. m., at the principal office of the company, in the State of Virginia, 119 South Fairfax street, Alexandria, Virginia, for the purpose of electing a board of directors and receiving and acting upon the reports of the officers, and for the transaction of such other business as may properly come before the meeting. Dated the 10 day of Oct. 1917.

LOUIS BEYER, jr., Secretary.
234-12t.

DARING GERMAN SPY.

He Tried to Worm His Way Into the United States Secret Service.

Washington, Oct. 18.—The extreme daring with which Germany's master spy system is endeavoring to ferret out American Army and Navy Secrets for use against the United States forces in the war against the Berlin government has been emphasized by several significant incidents just developed.

On top of the announcement that Ensign Dunbar "had been dropped from the rolls as ensign in the Navy, where he served for seven months before sufficient information was obtained to warrant action in his case, the action of the Army War College in reporting to the general staff its belief that there are spies secretly hidden under th cloak of the American uniform in the American Army, Secretary Daniels today disclosed the fact that a man—whose name for the present is being withheld—is under federal surveillance, and perhaps by this time has been arrested for having tried to worm his way into the American Naval Intelligence Service.

This man is a friend of the two Berlin bankers, Fritz Kuhn and George von Seebeck, who were taken into custody in New York city Tuesday by the Naval Intelligence Department and sent to Ellis Island for interment as dangerous enemy aliens.

WILL OUTSPEED U-BOAT.

Vessels Driven by New Motor of American Make are Dangerous.

Representatives of the United States, British, French and Russian Governments have for some time been watching the performances of a 53-foot motorboat equipped with a gasoline engine of new design invented by an American which promises to solve the problem of putting power enough in submarine chasers to make them cope in speed with the swiftest German submarines. The motor has a capacity of 400 horsepower, the highest of its type in the world, the inventor says, and in a run on the Sound it drove the boat at 41 miles an hour.

The inventor is C. D. Holmes, who designed the motor now widely used in the United States Life-Saving Service. He started to work on the motor soon after the war began in Europe, with the aim of a design specially suited to the submarine chaser. C. B. Cottrell and Sons Company, printing press manufacturers of Westerly, R. I., with whom Mr. Holmes has been associated in the construction of the motor, will manufacture the new engines. Production of parts of the engines has already been commenced, but a representative of the company said that none of the engines would be offered for private or commercial use during the period of the war.

With this engine three times as much power can be placed in a submarine chaser in the same space, and at practically the same feight, as is possible with any engine in present use, according to the inventor, making possible a larger boat and an addition of from five to seven miles an hour in speed. At present, according to reports from Europe, the newest German submarines have a speed of several miles an hour faster than submarine chasers, so that the addition of five miles in speed to the chasers would be a great advantage in the campaign against enemy submarines. Saving of space is also a prime item, as every foot available is needed for living room and ammunition. The new engine can also be adapted for airplanes and armored tanks. Its smooth operation, with absence of vibration and steadiness, were noteworthy in the run.

The engine is of the twin six V-type, and is the first application of this design to this kind of motor. It weighs 3,400 pounds, is 8 feet 4 in. long and 3 feet 10 inches in height. The test boat is equipped with two of the engines.

AUSTRIAN ARMY CRACKING.

Worn Down to Point Where Landsturm Is In First Line.

Austria's army has been so worn down that it has been necessary to draw upon the Landsturm for men for first line duty, according to cables from Berne. These reports quote proceedings in the Austrian Reichstrath recently when the Austrian Minister of National Defense, replying to assertions from the military committee that the old men called out of the Landsturm were unfit for service, said the wearing down of the Austrian military forces made it absolutely necessary to call for auxiliary service with the shortest possible delay, even though it had brought out a large number of men unfit for service.

Indigestion
when chronic is permanently corrected by the celebrated Shivar Mineral Water. Positively guaranteed by money-back offer. Tastes fine; costs a trifle. Delivered anywhere by our Alexandria Distributors, F. S Harper, Inc. Phone them

BIG DAY AT M'CLELLAN.

Ruth Law And Lieut. D'Aiguy, The French Officer, Reach Camp.

Camp McClellan, Ala., Oct. 18.—The arrival of Ruth Law, bird woman, with her aeroplane this evening, the coming of Lieut. Raymond d'Aiguy, officer of the French Chasseurs a'Pied, popularly known as "The Blue Devils," to act as advisor in the machine gun schools, the announcement that Col. Theodore Roosevelt had been invited to address the Blue and Gray Division, with Secretary McAdoo, on Liberty Loan day, October 24, all made yesterday a big day in this camp.

Today will be a bigger day than the first Liberty Loan day. In the afternoon Ruth Law will fly over the camp in the machine she hopes to use in the army when she gets the commission for which she is striving. Maj-Gen. William P. Duvall, commander of the Southeastern Department, will arrive in the morning and may make an address to the soldiers. Drills will be suspended and programs of entertainment, of which the Liberty Loan idea will be the chief feature, will be held in all brigades and regiments.

General Duvall was an instructor at West Point when Brig.-Gen. W. C. Rafferty, temporary division commander, was a cadet there.

The One Hundred and Fifteenth Regiment increased its lead in Liberty Loan subscriptions over the other regiments today by rolling up its total to $68,900, putting it $800 ahead of the One Hundred and Fourteenth. The divisional total is now $459,500.

The signal battalion of the Blue and Gray division is believed to have the highest per capita subscription in the entire army. Each man has averaged $134 in his Liberty Loan subscriptions.

Drafted men are expected in camp soon. From New Jersey 913 are coming, and 77 will come from Delaware. Drafted men from Maryland and Virginia will probably be sent for soon to fill up the ranks of the depot brigade.

About $800,000 is being guarded in the Anniston City National Bank by armed military police commandeered by Lieut. Charles Wisner, of old Troop A. The money will be used to pay the men of the Blue and Gray Division.

AFTER MICHAELIS' SCALP.

Socialists to Vote Against New War Credit if He Remains.

Amsterdam, Oct. 18.—A German Socialist newspaper says the Socialist have decided to vote against the new war credit of 10,000,000,000 marks, which is to be submitted to the Reichstag in December, unless Chancellor Michaelis resigns.

Except for the independent Socialists represented in the Reichstag by about 20 deputies who broke away from the party last year, the Socialists have supported the German Government through the war and voted for the war credits. Defection of the entire Socialist body in the Reichstag would represent a serious division, inasmuch as the Social Democrats and the Independent Socialists combined have 108 seats.

In the Circuit Court of the City of Alexandria, Virginia.

Hattie Everett, complainant. Vs. John Henry Everett, defendant. In Chancery.

Upon the application of the complainant stating specifically the last known place of abode of the defendant, and that the defendant is not a resident of the State of Virginia, the clerk on this 16th day of October, 1917, doth grant the following order of publication:

The object of this suit is to obtain a decree granting to the complainant an absolute divorce from the defendant on the grounds of willful desertion and abandonment for a period of more than three years prior to the institution of this suit.

An affidavit having been filed, that the defendant, John Henry Everett, is not a resident of this State, and that the said defendant not having entered his anpearance. it is this day ordered that he do appear in the Clerks Office, of our said Court, within fifteen days after the due publication of this order, and do what is necessary to protect his interest in this suit; that a copy of this order be forthwith inserted in the Alexandria Gazette, a news paper published in the City of Alexandria, Virginia, once a week for four successive weeks, and a copy posted at the front door of the Court House of this City, on or before the next succeeding rule day after this order is entered, that a copy of this order of publication be sent by registered mail by the Clerk of this Court, addressed to the said non-resident defendant at No. 1606 New Hampshire Avenue, North West, Washington, in the District of Columbia, the last known post office address and place of abode of the said defendant.

A Copy Teste:
NEVELL S. GREENAWAY,
Clerk.
Thomas M. Watson, William C. Davis, P. Q. 250-4w.

a greater number than any other party.

Copenhagen, Oct. 18.—Count von Reventlow, mouthpiece of the German admiralty, publishes in his newspaper, the Tages Zeitung, of Berlin, an article preparing his readers for a decrease in submarine destructiveness in September as shown by the German statistics, publication of which is about due. In addition to his earlier explanation of the decrease in the figures of tonnage sunk Von Reventlow advances the theory that Great Britain has withdrawn ships from service for the remainder of the year, in order to have them in readiness to transport the Argentine harvest in January. These withdrawals, he says, decrease the opportunities of the submarines for sinkings. This theory contrasts strikingly with his earlier assertions that Great Britain's available tonnage already had become too small for its needs.

Sudden changes in the routes of ships. Count von Reventlow says, are making it increasingly difficult for submarines to locate their prey. He attributes to American authority a statement that the passage of passenger liners between America and England now require 26 days.

NO SEPARATE PEACE.

Russia Regards German Offers as Hypocritical, Says Tereschenko.

Russia regards the kaiser's peace offers as "hypocritical, enigmatic and even contrary to the reichstag resolutions," according to a cable to the Russian embassy in Washington from Foreign Minister Tereschenko. The statement did not disclose the slightest leaning toward a separate peace with the Teutons. "The German government does not renounce a 'German peace' which conflicted with principles of law and justice," said Tereschenko. "It would only consent to peace negotiations on the basis of maintaining the conquered territories except, perhaps, partial restitutions which would be decided upon at the peace conference itself."

After declaring that President Wilson's reply to the Vatican precisely formulated the allies' general aims, Tereschenko said: "On the other hand renewed Russia has announced the principles for which the free people of Russia are fighting. With regard to this Germany has made no open and frank declaration, always proclaiming the supremacy of force to law, awaiting the moment when she will have the possibility of consolidating her attained conquests by force."

WILL INSTRUCT STUDENTS.

75 French Soldiers Expected to Reach Fort Myer Today.

Seventy-five French soldiers who have seen service on the western front are due at Forty Myer today and will spend a few days at the officers' reserve corps instructing the embryo officers in trench warfare. This is the largest single body of representatives from one of the allies which has visited the Fort Myer cantonment and it is expected that the visitors will instruct the men in all the latest styles of fighting.

The trench commands spent several hours yesterday in bomb throwing. The bombs, American made, are similar to those used by the allies. The missiles were not charged with gunpowder, but had caps which exploded five seconds after the grenades left the thrower.

"The Store of Greater Service"
LANSBURGH & BRO
Washington, D. C.

NOW IN PROGRESS OUR
57TH
ANNIVERSARY SALE

This sale surpasses all other sales of this kind for value-giving. The reason for this is that manufacturers, jobbers and wholesale merchants have co-operated, more than ever before, with us to make this the biggest "value carnival" of the season Then too, we have been continually on the market and placing contracts, some of which dating back to last year. Only last week were the last of these contracts completely filled.

For these facts you can understand better what is offered in this remarkable sale. In many cases the merchandise we offer can not be duplicated. Think what it means to buy here.

When you come to town remember Lansburgh & Bro. is where you can save money.

MAIL ORDERS RECEIVE PROMPT AND CAREFUL ATTENTION.

How Much Does Your Country Mean to You?

Put the question straight up to yourself in these hours when your country is fighting to make the world safe for democracy—safe for your country, your home and you.

You answer in your subscription to the Second Liberty Loan. By the ready warmth of your response, you measure the depth of your love for your country, and your gratitude for the comforts and advantages its democracy gives you.

Picture what your life would be in a country bereft of freedom; picture what you might be, had it not been for the opportunities our land of liberty gave you; picture the future of your child in the grip of the iron fist; put the question to your mind and sum up what your country means to you in sentiment and self-interest; for all that strikes at your country strikes at you and your home.

Then proclaim your answer in the buying of all the Liberty Bonds you can.

Buy until the buying pinches. The world offers no better investment. Your dollars will be fighting for your country, and storing up an income for your home.

Go at once to your bank and buy.

The space for this advertisement is contributed by the First National Bank, the Citizens' National Bank, the Alexandria National Bank, Burke & Herbert's Bank and the Alexandria Fertilizer & Chemical Company.

VIRGINIA NEWS.

The State Council of Virginia, Junior Order United American Mechanics adjourned at Pulaski yesterday afternoon to meet next year in Fredericksburg. Officers elected were: State councillor, W. T. Wade, Clifton Forge; vice councillor, A. L. Sampson, Richmond; treasurer, A. L. Bradley, Richmond; conductor, W. J. Lassiter, Berkeley; warden, J. F. King, New River Depot; inside sentinel, T. W. Brooks, Newport News; outside sentinel, J. W. Martin, Swansonville. C. J. Ashworth, Brosville; J. L. Mears, Richmond and T. B. Moore, of Galax, are trustees. The council voted to subscribe for a certain number of Liberty bonds and to prompt subordinate councils to do so.

Mrs. Millie Campbell has been held for the grand jury in Amherst County and is now in the county jail charged with the murder of her husband, Lewis Campbell, whom she is alleged to have shot and fatally wounded on Monday near Lowesville. He died Tuesday. It is said they had been living apart and Campbell returned home for his personal effects when, it is allegde, Mrs. Campbell fired two shots with a revolver, one taking effect just above the heart and the other in the back. It is said that a twenty three year old daughter and several younger children were witnesses to the shooting.

Percy L. Burnett, a young brakeman on the Danville and Western Railroad, was arrested in an automobile at Danville last night and taken in charge by officers. An hour later he led them to his rooms and there confessed to stealing $6,000 from the safe of the Southern Express Company while it was being brought to Danville from Leaksville, and then, opening a trunk handed the officers practically the complete amount wrapped up in newspapers. Obdurate at first, Burnett finally quailed before a third degree and said that he had taken the money. He stated that between Buford and Oakhill he got Williams to leave the express car. Seizing the opportunity he went in, opened the safe and took the money. The young man was placed in jail. All of the money with the exception of the $400 which he had paid for the car was found.

Judge T. N. Haas, in Circuit Court, at Harrisonburg, has overruled a motion for a new trial in the case of Robert Monger, who was found guilty Saturday of murder in the second degree and given eight years in the penitentiary for the killing of J. Milton Hensley on August 10. Attorneys for Monger have noted an appeal. The killing of Hensley resulted from a dispute over a line fence.

An American, James Dewey Fringer, of Roanoke, is the latest victim of German frightfulness. He was killed by shrapnel from a U-boat's gun while attempting to escape in a lifeboat from the sinking ship on which he had been a hostler. The steamer, the name of which is not made public, was of British registry. She was attacked by two submarines, being shelled without warning. There were a number of Americans in the crew. All the other Americans on board the ship was rescued and Donohue is expected to recover. Fringer was buried at sea. Another State Department dispatch reports that John Hildred, colored, of Newport News, is missing, following the torpedoing of a British vessel.

Approximately 1,000 quarts of liquor are being received in Richmond weekly, according to officials of the express companies operating into this city, despite the operation of the Federal statute prohibiting the importation of liquor into "dry" territory. All whisky now being shipped into Richmond, and Virginia, is for "medicinal" purposes, but nothing is required of the purchasers but their statement as to the use for which it is ordered. Previous to the operation of the Reed "bone-dry" law, shipments of whisky into Richmond totaled about 2,500 quarts weekly. Under the State prohibition statute every male adult could receive a quart of liquor every thirty days. The Federal law, however, prohibited the shipment of liquor except for medicinal, sacramental, mechanical or scientific purposes. Consignees of liquor are now required to sign two affidavits, one that they are complying with the Virginia law, and the other that the shipment is for "medicinal" purposes.

OFFICIAL.

Common Council.

At an adjourned meeting of the Common Council of the city of Alexandria, Va., held October 17, 1917, there were present:

Howard W. Smith, President, and Messrs. Woolls, Kaufmann, Wattles, Desmond, Pohl, Lawler, and Ballenger a quorum not being present th board adjourned until Friday night, October 19, 1917.

HOWARD W. SMITH, President.
Teste. Nevell S. Greenaway, Clerk.

BENEDICT'S PEACE AIM.

Pontiff Anxious Concerning Aims of Those Who Would Bring About a "Red Peace."

Rome, Oct. 18.—Pope Benedict's peace note to the belligerent powers was inspired not only by a desire to put an end to the cruel conflict that is drenching Europe with blood, but to prevent the extermist parties of some of the nations at war from forcing a "red peace" upon their respective governments.

This was the declaration made recently by a high prelate connected with Vatican state chancery.

Whatever the replies of the belligerents to the papal peace note may be the pontiff will continue his endeavors to have peace concluded upon the principles of justice and humanity, it was stated.

The prelate is question gave this explanation of the situation:

"The only two social forces which have remained neutral on radically different grounds are the Vatican and the internationale, the socialist revolutionary party. They are both working to end the war with widely different purposes in view and by different means.

"European public opinion has once more failed to understand the full meaning of the Pope's note. The fact is that injudging the pontiff's acts, the allied governments always start from the hypothesis that his holiness is working in favor of the central empires. I deem it useless to deny that once more, and it would be more logical and hospitable for all concerned if each government started from the fact that, thanks to its reorganized diplomatic service the Vatican is the best informed of all neutral chancelleries about the real internal situation in each belligerent country, the scheming and plotting of the preachers of anarchy and the real sentiment of the masses after three long years of suffering, bloodshed and mourning.

"Next to the carnage now going on in every battle front the effects of the Russian revolution are always before the Pope's eyes. He has his mind set upon them. In his opinion other revolutions of the same nature must be prevented to prevent the anarchy and disintegration that would inevitably result.

"When considered from this point of view the note of the Pope will also appear as a friendly warning to the belligerents.

"This explains why the Pope addresses his note to the rulers and not the peoples of the belligerent nations."

So far the United States is the only belligerent on the side of the allies to reply to the papal note, although Germany and Austria-Hungary have given their answers.

NEWS OF THE DAY

Alex Howat miners' chief for Kansas, is going ahead with a strike he ordered in that State despite John P. White's telegram postponing the strike and the appeal of Dr. Garfield, Coal Administrator. After reading Garfield's message Howat, it is stated, told the Pittsburgh, Kan., commissioner for the southwestern operators, George Richardson, that today was to be the last day the miners worked, and this information has gone to Dr. Garfield with the request for further decisive action to avert the strike which, if called, would involve nearly 25,000 men.

One unidentified woman was killed and fifteen persons injured, several probably fatally last night, when a street car was struck and wrecked by a Grand Trunk train at a crossing at Grand Rapids, Mich. W. L. Fick, the aged towerman was ordered arrested by the coroner. It is charged he was not attending to his duties.

President Wilson has no feelings of discouragement over the Russian situation and he is far from thinking that recent events have stamped her future as hopeless.

"All of Oesel is ours," was the announcement of the German general staff yesterday. "We have lost touch completely with our garrison on Oesel Island," came the ominous official admission from Petrograd. Field Marshal von Hindenburg is reported to be personally directing the land operations in what is believed to be the mightiest effort he has yet made to make good what he has maintained from the first day of the war: "Russia must be beaten first." The war lord's presence on the scene of operation—he is said to be directing the campaign from Oesel Island—is designed to inspire the Kaiser's army and navy, particularly the latter, which lost its idol when Von Tirpitz had to go.

Three men were killed last night and at least twelve dangerously injured when a workmen's train crashed into a crowded troop train on the Piedmont and Northern Railway spur to Camp Wadsworth near Spartansburg, S. C. The accident is said to have been due to the absence of lights on the car of the electric troop train. A blown-out fuse had put the system out of commission. One mile from camp the steam workmen's train, bearing 200 laborers, and two cars bore down upon the train. The troop train consisted of three coaches. Nearly 400 soldiers were jammed into the cars.

The first man killed on an American ship of war since the Spanish-American war has been sacrificed to a German U-boat. The Navy Department last night announced that an American destroyer had been torpedoed yesterday in European waters. One man was killed and five were slightly wounded. The vessel was not sunk and has since made port. The man killed was blown overboard and his body was not recovered. He was Gunner's Mate Osmond Kelly Ingram, whose mother, Bettie Ingram, lives in Pratt City, Ala.

If the coal situation grows worse and cannot be corrected through regular governments channels, the government will "use whatever powers are necessary to compel the production of coal to meet the country's needs." This was the message yesterday to striking coal miners of Indiana, Ohio and Illinois from Dr. H. A. Garfield, United States Fuel Administrator.

In announcing the abandonment of the plan to requisition ships for coal transport from England, owing partly to the reluctance of shipowners, F. E. Posthums, the Dutch minister of agriculture, says that the German government has given notice that it is unable to guarantee the safety of the vessels even if they bear distinguishing marks. The German stand is declared to be based mainly on the ground that the vessels might be mistaken for submarine traps. Minister Posthums, therefore, has abandoned the idea of recommending that shipowners provide their vessels with distinguishing marks.

A dispatch received in Amsterdam from Constantinople says the Sultan of Turkey has conferred on Emperor William the diamond star of the Iftichar order, Turkey's highest war decoration, and that Emperor William presented to the sultan the star and chain of the Hohenzollern order with diamonds. The dispatch adds that the emperor and the sultan have held another conference, the emperor being attended by Dr. von Kuehlmann, and the sultan by Talaat Bey, grand vizier; Enver Pasha, minister of war, and Hakki Pasha, Ambassador to Germany.

Ten persons were killed and forty wounded in a bombardment of Nancy Tuesday night by German aviators. Twenty-five German airplanes were destroyed by the French, or compelled to land in damaged condition this week.

While official announcement is being withheld, it is practically certain that the United States will be represented at the coming conference of all the nations at war against Germany, which probably will be held in Paris. Secretary Lansing yesterday authorized the statement that it had been decided that there would a conference and that the United States was considering participating in it.

Available returns from Monday's prohibition election in Iowa show a majority against the constitutional amendment forbidding the manufacture and sale of liquor in that state of 3,390 at 2 p. m. yesterday. Fifty-one scattering precincts are yet to be heard from.

CIVILIANS MEET DEATH

Troop Train and Motor Truck Collide Near Camp Meade.

Camp Meade, Admiral, Md., Oct. 18.—Two men are dead and one is dying as a result of a collision between a troop train and a motor truck at Severn Station on the Pennsylvania railroad a few miles from Camp Meade.

The dead are Irving Leon Fraustadter, of the Twenty-eighth ward, Philadelphia, and Israel Hoffman, of Baltimore, formerly employed by the Baltimore American circulation department.

The injured man is Charles Millstone, of Philadelphia, in charge of circulation for the Public Ledger of Philadelphia.

The accident occurred at exactly the same stop where two Philadelphia soldiers were killed last Saturday.

The men killed were part of a force in a motor truck of the Public Ledger, carrying newspapers to Camp Meade, at 6:05 this morning James Jass, the chauffeur of the truck, escaped. He managed to get the truck over half way across the track before the fender of the locomotive hit the rear of the truck.

FILIPINOS PLEDGE LOYALTY.

Insular Congress Makes This its Opening Act.

Manila, Oct. 18.—The Insular Congress opened yesterday its first act being the adoption of a resolution affirming the adherence of the Philipino people to the cause of the United States in the world war.

Francis Burton Harrison, the Governor General, in his message to the Congress urged legislation authorizing the Government to proceed with the food campagn already begun. He asked liberal treatment of all Government employes who have been called to serve in the war. Regarding economic legislation he suggested a postponement until the end of the war of the contemplated changes in the Philippine tariff.

Authority was asked by the Governor General to reduce the intrinsic value of silver coins and to issue peso bills. Legislation for the establishment of a Philippine mint also was requested.

The Governor General reported the treasury to be in sound condition and therefore asked Congress to make adequate appropriations, particularly for public works, education and the promotion of health.

Flour Cheap in Britain.

American flour in England, despite the high transportation costs and submarine risks, costs $12.50 for a barrel of 280 pounds, or 57 per cent. less than the same flour in the United States.

American flour in this country sells around $13 or $14 a barrel of 196 pounds.

Lord Hhonda, the British Food Controller, according to a London dispatch, fixed the price of flour in England at the figure named. A barrel of 196 pounds would cost $8.75 in England.

RAIDS EXPECTED WITH MOON.

London Schools to be Closed Last Week in October.

London, Oct. 18.—London's bomb-proof shelters are being card-indexed in preparation for further German raids. Sufficient tunnels, arches, crypts, basements and substantial buildings have been inventoried to accommodate one million persons.

In making this announcement yesterday, Sir George Cave, Home Secretary, declared an advisory board of prominent surveyors will be appointed soon to make a canvass of bomb-proof shelters in Greater London.

The decision of the educational authorities to close all the London schools during the last week in October is perhaps the most interesting of the many steps being taken in anticipation of the recurrence of German raids as soon as the moon is up again. Air raid shelter placards are being distributed throughout the metropolitan area.

LEGAL NOTICES

IN THE CORPORATION COURT OF THE CITY OF ALEXANDRIA, VIRGINIA.

John P. Agnew, Mary Agnew Stratton, and Alexander K. Stratton, her husband, Complainants vs. Frederick Mertens, in his own right, and as Admr., d. b. n. c. t. a. of Park Agnew, Margretta Agnew Demarest and Harry E. Demarest, her husband; Matilda Agnew Rogers and Walter G. Rogers, her husband, M. B. Harlow and John Mitchell, jr., as trustees, and M. B. Harlow, in his own right and as trustee, Defendants. In Chancery.

To John P. Agnew, Mary Agnew Stratton and Alexander K. Stratton, her husband, Frederick Mertens, in his own right, and as admr. d. b. n. c. t. a. of Park Agnew, deceased, Margretta Agnew Demarest and Harry E. Demarest, her husband, Matilda Agnew Rogers and Walter G. Roberts, her husband, M. B. Harlow and John Mitchell, jr., as Trustees, and M. B. Harlow, in his own right and as Trustee, and all other creditors or persons having claims against the estate of the said Park Agnew.

You are hereby notified that I have fixed on the 20th day of October, 1917, at ten o'clock a. m., at my office 115 South Royal Street, Alexandria Virginia, as the time and place when and where I shall proceed to commence to execute the decree rendered by the Corporation Court for the City of Alexandria, Virginia, and entered on the 14th day of September, 1917, in the Chancery cause therein depending, wherein John P. Agnew, et als., are plaintiffs and Frederick Mertens, etc., et als, are defendants, by which decree I, William P. Woolls, was appointed a Special Commissioner in Chancery of said Court and was directed to take, state, ascertain and report to the Court according to said decree, as follows, to-wit:

1. Of what estate, both real and personal, the late Park Agnew died seized and possessed; the assessed and annual value of the said real estate, and liens thereon, with their respective amounts and priorities.

2. All debts and liabilities of the said Park Agnew, with their respective amounts and priorities.

3. To state and settle the accounts of the late Laura B. Agnew, as executrix of the said Park Agnew; Frederick Mertens, admr., d. b. n. c. t. a. of the said Park Agnew, Frederick Mertens as collector of the rents, issues and profits of the real estate the said Park Agnew died seized and possessed, M. B. Harlow, as trustee in a deed of trust dated September 19th, 1910, recorded in Deed Book No. 60, page 239, a Land Record of Alexandria City, and M. B. Harlow and John Mitchell, Jr., as trustees in a deed of trust dated September 2nd, 1912, recorded in Deed Book No. 62, page 307, a Land Record of said City.

4. To marshal all the assets of the estate of said Park Agnew for payment of debts.

5. Any other matter or thing that any party to this suit may require or to him may seem material, pertinent or proper.

At which time and place you are required to attend, subject to all proper adjournments and continuances, until completion of the said reference, and to bring such documents, books, or other evidence as may be required at any time by Special Commissioner, and such depositions are to be taken as may be necessary to show the facts in this cause.

Given under my hand as Special Commissioner of said Court this 2nd day of October, 1917.

Wm. P. WOOLLS, Special Commissioner in Chancery for the Corporation Court in Alexandria City, Virginia. 240-14t
